

Formula for Success:

What's your formula for Success?

Over time, I've developed my own.

Success = Vision + Passion + Action.

The 7 key drivers:

- Be aware of the successes you have achieved
- Change more of your activities into accomplishments
- Be inspired by the lives of celebrities who overcame big obstacles
- Identify people who you greatly admire for their accomplishments
- Describe the ways you show commitment to yourself and others around you
- Review the characteristics of champions – build confidence
- There is always a better way – what can you learn?

Do you have a plan?
